

Background

UNSW is committed to the principles of equity, diversity and inclusiveness and the Faculty of Medicine & Health encourages applications from students with disabilities and from diverse backgrounds. This

1. Physical and observational capabilities.
2. Effective communication.
3. Teamwork.

Examples of expectations in these areas are provided below.

1. Physical and observational capabilities

Medical students will be expected to demonstrate their ability to acquire information (both in verbal form and through physical examination of the patient, including typical techniques of observation and inspection, palpation, percussion, and auscultation), carry out a range of procedures suitable to their level of capability, and understand and carry out their role in assisting during a range of medical situations, from routine through to life-threatening emergencies. By graduation, they will be expected to recognise, assess, and support the management of a deteriorating and critically unwell patient who requires immediate care, including directing or per assiste
