

School of Physics

# Course Outline 2022

### **3. Strategies and approaches to learning**

---

## 3.2 Expectations of students

Students are expected to attend 80% of all classes.

Academic misconduct will not be tolerated in any form in this course. Substantiated instances of cheating, plagiarism or copying of answers may result in a failure grade or significant deduction of marks. Please ensure you are fully familiar with the University's requirements and rules on plagiarism, which are detailed at <http://student.unsw.edu.au/plagiarism>. Claims of being unaware of the rules and/or the requirement for you to meeting them will not be accepted as mitigating circumstances.

The School endorses interactive group learning and fully understands that you may discuss the content of your courses including tutorial and assignment problems during your studies. However, submitted assignments should be your own work outlining your own reasoning and demonstrating your own knowledge related to the assessment. Copying will not be tolerated (we are good at spotting it); please ensure you know where the line between studying together and cheating on assessments lies. We will expect you to stay firmly on the correct side of that line.

## **5. Assessment**

---

### **5.1 Assessment tasks**

## Other Resources

Lecture notes will be posted on the PHYS3113 Moodle page.

## 8. Administrative matters

---

### Communications

Students should check their UNSW email account regularly as all official university communication will be sent to that address. Students should use their university email account when writing to UNSW staff and should always include their name and student number.

### Health and Safety

The School of Physics is actively committed to the health, safety and welfare of its staff and students. Information on relevant UNSW Occupational Health and Safety policies and expectations is available at: [www.ohs.unsw.edu.au](http://www.ohs.unsw.edu.au) and <https://www.physics.unsw.edu.au/about/safety>

### Recommended Internet Sites

The School of Physics website is [www.physics.unsw.edu.au](http://www.physics.unsw.edu.au). Under the “Current Students” link students will find information about degrees, courses, and assessment.

The University website [my.unsw.edu.au](http://my.unsw.edu.au) provides links to the UNSW Handbook, Timetables, Calendars and other student information.

### Student Complaint Procedures

UNSW has procedures for dealing with complaints. These aim to solve grievances as quickly and as close to the source as possible. Information is available here: [student.unsw.edu.au/complaints](http://student.unsw.edu.au/complaints). Staff who can assist include:
