and their role in good and poor

- Assignment submissions and returns
- Assessments
- Special consideration
- Student code of conduct
- Student complaints and grievances
- Equitable Learning Services
- Health and safety

It is expected that students familiarise themselves with the information contained in this guide

ASSESS

ASSESS **ASSESS** **ASSESS**

course. Further information on the format and approach for the research proposal will be provided closer to the release date of the assessment. Feedback will be provided online via Moodle no longer than 10 working days from the due date. Any assessments submitted after feedback is returned will not be marked and will receive a grade of 0.

Researcher's Role

Attendance and active participation in tutorials is an important component of the course. You will be expected to watch presentations. The presenters will chair the discussion pertaining to their presentation.

In addition to tutorial assessment 1 requires you to provide feedback to one of your fellow students on their proposal draft. All students will have to provide at least 100 words feedback per assessment category.

Researcher's Role

Note, tutorial assessment 1 is Assessment 3 in this guide.

e

Researcher's Role

The 2-hour final exam consisting of short answer and/or

e e s e s s e s

		Date: Thu 21 September 10.00-11.00 Loctation: Mathews Theatre B (K-D23-203)

e e e is a way of acknowledging the sources of information that you use to research your assignments. You need to provide a reference

Special Consideration. This is to ensure that if you feel unwell or are faced with significant circumstances beyond your control that affect your ability to study, you do not sit an examination or submit an assessment that does not reflect your best performance. Instead, you should apply for Special Consideration as soon as you realise you are not well enough or are otherwise unable to sit or submit an assessment.
